EXPERIENCE

INFOSYS LTD | SENIOR ASSOCIATE CONSULTANT

January 2024 – Current | Bengaluru, India

- Working with a multinational Payment Card services provider to develop an analytics dashboard to provide insights over data to businesses
- Building Java based micro-services and microfrontend architecture for the UI
- Writing automated UI test cases for the dashboard using Robot Framework

INFOSYS LTD | TECHNOLOGY ANALYST

August 2019 – December 2023 | Bengaluru, India

- Designed beautiful analytical reports providing deep insights using QlikView
- Onboarded and mentored new team members, ensuring they gained the necessary skills and knowledge to be productive quickly.
- Facilitated successful knowledge transfer through targeted training sessions for new hires.

INFOSYS LTD | SYSTEM ENGINEER

August 2019 – July 2022 | Bengaluru, India

- Worked with a multinational Investment Banking Client to develop a real-time fund performance oversight Fin-Tech software using Java Spring Framework, ReactJS & Sybase ASE.
- Writing well-designed, testable, efficient code by using Agile software development practices
- Identified a bottleneck in the client's review process and designed UI to address it. This solution demonstrably improved user experience by saving them 1-2 hours daily

PROJECTS

MSIT.IN | PYTHON, DJANGO FRAMEWORK

- Lead the team & developed the entire MSIT College Website using the Django framework.
- Built a Django based custom CMS & Admin Portal with add-on features to facilitate the website's operations through rich Front-end interactions.

ABTOAST | PYTHON, DJANGO FRAMEWORK

- ABToast is an A/B Testing application that is used to compare two different variants of a page for their effectiveness to the Target Audience.
- It is a modular application built using the Django framework and can be seamlessly integrated into web applications without any additional dependency.

KUBE | PYTHON, DJANGO FRAMEWORK

- A remastered version of the original Kube Kube Game developed using Vanilla Javascript and jQuery.
- The Game server is developed using Django Framework & hosted on Heroku.
